DETAILED ACTION

Claims 1-33 are pending.
Raw Sequence Listing has been entered.
Submitted Information Disclosure Statement (I.D.S) is noted.

Election/Restrictions

Applicant's election with traverse of Group I (claims 1-30) in the reply filed on 09/15/2008 is acknowledged. The traversal is on the ground(s) that substantive examination of Group I and Group II (claims 31-33) relate together and Groups should be rejoined.

Upon reconsideration and in view of cancellation of claims 34-36, Applicants' arguments are persuasive regarding rejoinder of Groups I-II. Hence, claims 1-33 have been rejoined.

Claim Rejections - 35 USC § 112

The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

Claims 1-33 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

Claims 1 and 31 are confusing for recitation of "physiological change associated with CTL function", the intended physiological change(s) have not been defined. This affects the dependent claims 2-29, 32-33.

Subject Matter Allowable over Prior art

Claims 1-33 are deemed free of prior art, given failure of the prior art to teach or reasonably suggest the claimed invention. The closest art identified is teaching by Munger et al (US 2003/0171279 A1, September 11, 2003). The teaching by Munger et al, however, does not consider T lymphocyte in general or cytotoxic T lymphocytes in particular.

No claims are allowed.
